Attention: Mr. E. J. Sullivan
Environmental Consultant

Dear Mr. Sullivan:

Our records indicate that the first quarter of background sampling was performed on the following listed wells during August of 1984 and received in this office on November 27, 1984. To fulfill the background requirements of Section 725.192(c)(1) three more quarters of sampling are required of Amoco's Main and Riverfront facilities.

The Agency has assigned the following numbers to the corresponding monitor points.

Riverfront
ILD980503106

RL-1 G-110
RL-2 G-111
RL-3 G-112
RL-4 G-113
RL-5 G-114
RL-6 G-115
RL-7 G-116
RL-8 G-117
RL-9 G-118
RL-10 G-119

Main Plant
ILD980700967

RP-1 G-150
RP-2 G-151
RP-3 G-152
RP-4 G-153
RP-5 G-154
RP-6 G-155
RP-7 G-156

The Agency is requesting that Amoco use the newly assigned numbers whenever submitting information concerning these monitor points. This will facilitate processing and avoid confusion with monitor points presently on file.

Enclosed you will find your new chemical analysis forms along with instructions for completing them. The forms will have your site inventory number, monitor point number and the constituents which you are required to monitor for preprinted on them. Please review these forms to verify that the preprinted information is accurate. It is your responsibility to test for all constituents required by the site's monitoring program. If a required constituent has been left off the analysis form, or if any preprinted information appears incorrect, please notify us in writing as soon as possible.

If you have any questions please contact me at the above listed number.

Sincerely,

Kenneth W. Liss
